

JBZ-D Paper Bowl Forming Machine

JBZ-D Paper Bowl Forming Machine

Description of JBZ-D Paper Bowl Forming Machine

JBZ-D Paper Bowl Forming Machine is developed on the basis of absorbing the advantages of the latest Korean paper bowl machine. It can make large paper bowls, such as soup bowl and fast noodle bowl etc. The procedure is as follows: Automatic paper feeding, two steps of pre-heating, sealing, oil silicon lubrication, bottom punching, two steps of bottom heating, knurling, curling and bowl discharge with photoelectric detection, failure alarm and counting.

Technical Specification of JBZ-D Paper Bowl Forming Machine

Model	JBZ-D50	JBZ-DZ
Bowl Size	20-50 oz	1100ml, 980ml, 998ml, 460ml etc.
Raw Material	Two-side PE coated paper (hot type) or One side PE coated paper (ultrasonic type) (240-300g/m2)	
Capacity	30-35 pieces/minute	
Power Supply	380V/50HZ (it can be changed if customer requires)	
Total Power	13kw	
Weight	2000kg	
Package Size (LxWxH)	3150x1580x1850mm 800x750x1300mm
