

JBZ-S Double-Sided Paper Cup Forming Machine

JBZ-S Double-Sided Paper Cup Forming Machine

Description of JBZ-S Double-Sided Paper Cup Forming Machine

JBZ-S Double-Sided Paper Cup Forming Machine is an automatic machine with multi working stations. It produces two-side film-coated paper cup through the procedures of automatic paper feeding, ultrasonic welding, oil silicon lubrication, bottom punching, heating, knurling, curling and cup discharge. The sealing system is an ultrasonic sealer, so this model is suitable for making two sides PE coated paper with full printing design cups. This cup can be used for both hot and cold drinks, such as soft drink, ice-cream and coffee etc.

Technical Specification of JBZ-S Double-Sided Paper Cup Forming Machine

Model	JBZ-S12	JBZ-S22	JBZ-S36
Cup Size	6,8,12 oz	16,22 oz	36 oz
Raw Material	Two side PE coated paper		
Capacity	40-50pcs/min.	35-45pcs/min	30-35pcs/min
Power Supply	380v/50HZ (it can be changed if customer require)		
Total Power	6.5kw		
Weight	1600kg	1700kg	1800kg
Package Size (L×W×H)	2800×1350×1800mm 800×750×1300mm	2800×1320×1850mm 800×750×1300mm	2800×1320×2000mm 800×750×1300mm
