

JDGT Paper Cake Tray Forming Machine

JDGT Paper Cake Tray Forming Machine

Description of JDGT Paper Cake Tray Forming Machine

JDGT Paper Cake Tray Forming Machine uses machine hand to clip paper, feed paper, separate paper, punch and discharge paper etc. This model can make different sizes of cake tray by changing moulds. It has simple structure, inverter, and automatic temperature controller. It is of easy operation, high efficiency and stable running.

Technical Specification of JDGT Paper Cake Tray Forming Machine

Model	JDGT
Paper Size	Φ55-Φ130mm
Raw Material	Oil-protect paper 30-40g/m ²
Capacity	15-20pcs/time 20-40 times/min
Power Supply	380V/50HZ (it can be changed if customer requires)
Total Power	2.5KW (Motor:1.5KW Heating :1 KW)
Air Source	Working pressure 0.6MPa Air volume 0.3m ³ /min
Weight	500kg
Package Size	1750×1500×1650mm
