

PHM-320/220 Automatic Plastic Thermoforming Machine

PHM-320/220 Automatic Plastic Thermoforming Machine

Description of PHM-320/220 Automatic Plastic Thermoforming Machine

PHM-320 220 Automatic Plastic Thermoforming Machine integrates machinery, electricity and air. It has PC auto-controller and frequency controlled speed-adjuster. Heating-forming-cutting-stacking are the whole procedure, which runs automatically. This machine can be fitted for PLC if the customer requires.

The machine can produce spoon, lid and tray etc. It is applicable to BOPS, HOPS, PS, PVC and PET etc.

Technical Specification of PHM-320/220 Automatic Plastic Thermoforming Machine

Max. Forming Area	320x220mm
Max. Forming Depth	30mm
Max. Diameter of Roll	710mm
Max. Width & Thickness of Sheet	320x0.1-1mm
Air Pressure	0.5Mpa
Capacity	1200 (time/hour)
Total Power	380v 50HZ 5.5KW
Weight	900kg
Package Size	2000x900x1500mm
