

ZB-12 Paper Cup Handle Machine & JBZ-N Automatic Paper Cup Handle Machine

ZB-12 Paper Cup Handle Machine & JBZ-N Automatic Paper Cup Handle Machine

Description of ZB-12 Paper Cup Handle Machine & JBZ-N Automatic Paper Cup Handle Machine

ZB-12 Paper Cup Handle Machine has two independent working stations, which can produce products of different sizes by changing moulds. This machine is suitable for 5-12 ounce paper cups. JBZ-N Automatic Paper Cup Handle Machine is used with paper cup forming machine together. It also can be used separately of cup feeding, positioning and handle sticking, counting and stacking automatically. There is a very accurate control system. This machine has PLC system, which is easy to operate and maintain.

Technical Specification of ZB-12 Paper Cup Handle Machine & JBZ-N Automatic Paper Cup Handle Machine

Model	ZB-12
Cup Size	5-12ounce
Capacity	15-25 pieces/minute (one working station)
Power Supply	220V 50HZ
Total Power	1.5kw
Weight	100kg

Dimension (LxWxH)	1280x650x1300mm
Air Source	Working pressure 0.6MPa Working air volume 0.3m ³ /min
Model	JBZ-N
Cup Size	4-12 ounce coated
Raw Material	Single PE coated paper
Capacity	40-50 pieces/minute
Power Supply	380v/50HZ
Total Power	1.5KW
Weight	1000Kg
Dimension (LxWxH)	1880x1400x1650mm
